

Integration Guide

Data written back into eMDs from Health iPASS

- Appointment Confirmation
- Appointment Arrival
- Base Demographic Data
- Payment posting: Deposit posted to Account

About the Health iPASS – eMDs Integration

The Health iPASS - eMDs integration works in to help you accelerate the check-in process, collect more accurate patient information, reduce staff time spent manually transferring patient data, and perform batch eligibility and benefits checks. Patient schedules are automatically imported into Health iPASS every morning, and in real-time throughout the current day. Health iPASS can even pull across most patient balances, saving you time and insuring accuracy!

Data retrieved from eMDs into Health iPASS

- Appointment Loads
- Base Demographic Data
- Insurance Data from PM
- Extended Demographic Data
- Retrieve Patient Balances

What information can we get?

- ID
- First Name
- Last Name
